**Main thing with all of these homes is there is no heating system at all.**

### **Other needs**

A lot of attention needed and proper organising

A burglar bar is desperately needed for 2 windows of their stock room where all the food is kept.

They have a bore hole but need a pump

About 6 grid drain covers needed for drains

Have 4 solar panels and 15 batteries that is it.

Filing cabinets are desperately needed as the children's personal files are on a table.

Social workers office where she talks to the children is very, very dark

Jojo tanks will help for the garden as well as filling the pool.

They have 3 X Toyota mini busses needing servicing.

Not enough fire extinguishers.

### **Things I have come up with that I think will make a difference**

In the outside play are, a mini VKC track with plastic black bikes.

Paddle pool for youngsters.

Solar and LED lighting.

The swings can be repaired but using tyres.
